#### To The Class of 1984:

The word **involvement** has been bandied about so much that is has become rather trite. I would hope that in my few comments to you, you would try to add some degree of "freshness" to the word **involvement**.

Wallace Stevens in his poem "The Snow Man," urges his readers that in order to experience winter one must "have a mind of winter." One must become one with the season and the scene.

I urge you to become involved with each task or experience with which you become a part - college life, work, and the many daily experiences you will encounter. It is the only way you can savor life to its fullest.

My sincerest appreciation to all for all the contributions to your high school. My best wishes to you as you leave your high school life and begin a new life.

## SNAPPER'S

The 19" Hi-Vac proves SNAPPER's built in quality can come in a small package. Light, compact and durable. It's easy-to-start and easy-to-handle.

A short wheel base helps

prevent scalping and allows mowing and trimming in tight areas, around shrubs and

under trees.

SNAPPER's exclusive patented Hi-Vac cutting system creates a powerful suction that actually sets up grass for a smooth, even cut, while

vacuuming your lawn of clippings, leaves and other debris. Options are a Snapperizer for shredding leaves, a Mulcherizer for mulching clippings and a side discharge for use without a bag. For added convenience there's the Extra Bag-N-Blade Kit.

It's no wonder this compact SNAPPER makes such short

work of lawn work. Look for it at your SNAPPER dealer today.
